

YOUR MEMORIES OF LOVE AND SHARING WILL LAST FOR EVER

Everything is Temporary in this world except the memory we leave behind with our loved ones. “Our body will be gone one day, our wealth will be some one else’s one day” are the universal fact, truth and reality. There is nothing in this world that belonged to me permanently.

Some say Oh! I have a fit body, Oh! That belonged to me. But please know that all these are wealth but temporary in nature. There is one thing that is permanent and that will remain ours forever. That is the love and memories we share with others. The love and memories we share with needy little children will be remembered by them for all eternity. “Let the children come and enjoy my love and affection for it is they who are our future” is the golden rule to remember.

CONTINUE...

Dear sponsor, your act of generosity and love towards the little children you adopt will be remembered for ever and you will be in these children's memories for ever to the eternity. Please remember you are not just helping a particular child but rather pass on your love to the future generations to come.

We at SJDT are very proud to be a facilitator of building this wonderful love and sharing relationship. Every child born in this world has a right to be loved and protected unconditionally. Together we jointly fulfill this mission.

Dr. I. Sebastian
